*REACH (Regulation, Evaluation, Authorization and Restriction of Chemicals):
Important information concerning the registration of substances*

Preregistrations:

The REACH preregistration of substances has ended December 1, 2008. We have preregistered substances used by our company through our German subsidiary, Huber the Nose. GmbH in 87467 Konstanz, Germany.

Registrations:

Registrations of substances will be effected in the coming years according to the quantities involved. (Only substances may be registered, mixtures like fragrance blends, etc. are literally excluded). All usages listed in the „use mapping tables“ of COLIPA and A.I.S.E. will be accounted for.
